

AUTOMATED NOTES MAKER FROM AUDIO RECORDINGS

TEAM NAME: SMART TECHIES

TEAM MEMBERS:

- PRAVEEN A
- JAISHREE B
- DIVYAJOTHI M

ABSTRACT:

- The project is a real time speech to text conversion system with more accuracy as the user pronounces.
- In our application the words are made into text file.
- The text file is mailed to the registered user , which can be used for further reference. The application can be used in all operating systems.
- The project aims to provide students with text based PDF/Word Document of their online classes given they are voice based in nature.
